

Tissue Viability Teaching Schedule 2019

Email: cpm-tr.tvtraining@nhs.net

Application Procedure

Applications for places on study days must be submitted using the Tissue Viability Application Form provided on the last page of this schedule and sent to the Tissue Viability Team by email to cpm-tr.tvtraining@nhs.net.

Incomplete forms or bookings made without a form will not be accepted.

Applicants will be notified by email approximately two weeks prior to the study session, to inform you if your application has been successful. Please ensure that your email address is clearly stated – this will be used to notify you when you are allocated a place.

We reserve the right to refuse applications if the number of applications exceeds the room capacity.

Nursing and Care homes may apply for up to 2 places per study day, for each home.

Cancellations & Non-Attendance

Candidates who are absent on the day without prior notification will be sent a charge of £80 to their team's budget. It is important to let us know as early as possible of cancellation. This is to ensure that all places are utilised, reducing any waiting lists that we may have.

Refreshments

Tea and coffee will be provided at a charge.

Lunch will not be provided at any of the study sessions, so please remember to bring your own.

Chronic Oedema/Wet Legs Study Day

Overview:

This course will provide you with a thorough understanding of chronic oedema/lymphoedema, which is the underlying problem in most patients with wet legs.

We will share with you newly developed management pathways for both chronic oedema and wet legs, and through practical workshops, consider various aspects of care.

The course will encourage you to think holistically, and provide an opportunity to explore the role of health coaching and how you can encourage patient participation.

Objectives:

- Understanding of A and P of chronic oedema/lymphoedema
- Understand key aspects of the management of chronic oedema, focussing on skin care and compression
- Understand different forms of compression, circular knit, flat knit, wrap systems and bandaging
- Be able to measure for compression systems
- Understand latest advice about vascular assessments, prior to using compression including bandaging
- Understand when to refer to specialist services
- Understand the holistic approach to managing these patients
- Understand that managing the chronic oedema of today prevents the wet legs of tomorrow

10 January	09.00 – 16.00	Seminar Room 2 The Oak Tree Centre Huntingdon
24 April	0900 – 16.00	Conference Room Princess of Wales Hospital Ely
9 July	09.00 – 16.00	Recreation Hall Doddington Hospital Doddington
3 October	09.00 – 16.00	Block 20A, Conference Hall Ida Darwin Fulbourn Cambridge
