

Cambridgeshire and Peterborough Testbed Wave 2 National Time for Care Programme Offers

Proposal

Cambridgeshire and Peterborough CCG is working together with NHS England to offer the below programmes to support all member practices with engagement and implementation of the 10 High Impact Actions as part of the GPFV.

1. Fundamentals of Change and Improvement
2. Time for Care: Learning in Action

The aim of these programmes is to support practices in increasing their knowledge of quality and change improvement, engaging with peers and developing focused aims on local projects, and ultimately reducing pressures in General Practice.

Funding

Our intention is to fund backfill for 1 GP and 1 Practice Manager to allow attendance and engagement with **one** of these programmes.

Practices are welcome to engage with more than one of the above programmes, however, they will only receive backfill funding for the sessions of one of these programmes. Attendance on any additional programmes will need to be supported within the practice.

Wave 1 Testbed practices are welcome to engage with these programmes, however, there will be no additional funding support on top of that which has already received via their pilot programme.

What next?

Practices are invited to review the below programme resources to learn more about each programme offer.

Practices are encouraged to attend the upcoming engagement event on 12 June 18 where they will hear more about the Fundamentals of Change and Improvement, and Time for Care: Learning in Action programmes.

Practices will be able to express their interest to their chosen programme(s) at the end of the engagement event on 12 June 18 with formal sign up to be confirmed by 29 June 18.

If you have any queries then please contact the Primary Care Team at capccg.primarycare@nhs.net.

Cambridgeshire and Peterborough Testbed Wave 2 National Time for Care Programme Comparison
